CRA-READY

Configuration and management software

Product description

You can monitor and configure several power supplies and UPS systems simultaneously with the new software. It supports all devices with USB or EtherNet/IP™ interfaces.
The software is available for you to download free of charge for QUINT4 and TRIO 2G devices.

Your advantages

- Monitoring of multiple power supply and UPS systems from different PCs; ready for use in Windows and Linux environments
- Configuration of all connected systems via the user interface directly on the system or centrally from a control room, regardless of the operating system used
- Transparent overview of all systems, with the option to expand functionality by integrating external monitoring or HMI solutions via a REST API
- Controlled shutdown of one or more PCs in the event of a mains failure, including for Linux-based systems
- Customizable system environment tailored to each application, thanks to Linux compatibility and the option to integrate your own applications via the REST API

Commercial data

Item number	1252232
Packing unit	1 pc
Minimum order quantity	1 pc
Product key	CMS211
GTIN	4063151359676
Country of origin	Information on the country of origin is provided with the delivery.

Technical data

Notes

Note on application

Note on application	As things stand now, we are preparing the product so that, as of December 11, 2027, it will comply with the requirements of the EU Cyber Resilience Act (CRA) based on the information currently available regarding the CRA.

Product properties

Product type	Configuration and diagnostics
Special properties	The product is being prepared for compliance with the Cyber Resilience Act (CRA)
