

# Machine Safety & Legal Certainty

Order No. 9068491

One-day seminar

Machine safety and legal certainty

## 1 Description

A specialist lawyer will present the requirements of the applicable legal provisions placed on machine manufacturers and operators in three sections:

- Liability
- Purchasing
- Procedure in the event of a claim

At the end of each section, the practical implementation of the requirements will be explained by a safety engineer.

You will then be familiar with the requirements from the applicable legal provisions and will have the necessary information for their practical implementation.

## 2 Program

### Section 1

- Liability and consequences of liability, criminal proceedings, and civil law, including an explanation of insurance claims
- Areas of responsibility for manufacturers, buyers, and operators of machinery and components
- Product safety, product liability, contract law
- Legal requirements for manufacturers and operators
- Processes and methods for the practical implementation of the legal provisions for machine safety and the functional safety of machinery derived from this

### Section 2

- Purchase of components inside and outside the EU
- Dealing with initial samples and prototypes
- Drafting contracts for service providers for the conversion, interlinking, and putting into service of machinery
- Legal provisions for the interlinking and conversion of machinery
- Presentation of the responsibilities for compliance with the legal provisions
- Processes and methods for practical implementation with respect to the interlinking of machinery and changes to machinery
- Information on documentation in the case of interlinking and changes

### Section 3

- Procedure in the event of a claim and in crisis situations
- Insurability of risks and dealing with prosecuting authorities
- Consequences of non-compliance with the legal provisions
- Potential liability of employees and executives
- Methods for providing evidence and the incumbent duty of care
- Significance of verification documentation in the event of a claim
- Presentation of verification documents for general machine safety and with respect to functional safety

### **3 Target groups**

- Executive partners
- Authorized representatives of manufacturers
- Those responsible for the manufacture, conversion, and interlinking of machinery
- Buyers and dealers of machinery
- Relevant senior employees

### **4 Duration and costs**

1 day

We will be happy to prepare a non-binding quote for you.

To request this, speak to your personal sales partner directly or contact the headquarters in your country.

### **5 Requirements**

None

### **6 Further information**
