

PC WORX Express function blocks

PC WORX Express 6

With PC WORX you can integrate PC WORX libraries into PC WORX Express 6 projects. Please note that it is still not possible to open PC WORX libraries with PC WORX Express 6.

Integrating a PC WORX library into a PC WORX Express 6 project

- Download a PC WORX library from the Phoenix Contact Website, for example „pc_worx_6_x_canbus_1_07.exe“ (<http://www.phoenixcontact.com>).
- Install the library by double clicking on the EXE-file.
- Start PC WORX 6
 - Do not start PC WORX Express 6 !
 - In case you do not own a PC WORX 6 license it will be run as demo version.
- Compile the library with PC WORX 6.
- Close PC WORX 6
- Afterwards start PC WORX Express 6.
- Open your PC WORX Express 6 project.
- Integrate the compiled library into your PC WORX Express 6 project.

PC WORX Express 5

With PC WORX Express 5 it is still not possible to integrate PC WORX libraries. In order to do so, update to PC WORX Express 6.
