Axioline Smart Elements, Potential distribution module, 24 V DC, GND, degree of protection: IP20

Product description

You can integrate Axioline Smart Elements into systems with the Smart Element interface. This Smart Element provides the 24 V I/O supply voltage U_p at eight terminal points and the corresponding ground (GND) at eight terminal points. The Smart Element thus enables you to connect sensors in 2- or 3-conductor connection technology, whose signal lines are connected to the AXL SE DI16/1 Smart Element, for example. In addition, you can connect actuators in 2-conductor connection technology, whose control lines are connected to the AXL SE DO16/1 Smart Element, for example. You can also supply analog sensors with current or voltage signals using Smart Elements for potential distribution. Either use the AXL SE PD 24V and AXL SE PD16 GND Smart Elements or the AXL SE PD8/8 24V/GND Smart Element for this purpose.

Your advantages

- 8 terminal points, connected to the 24 V I/O supply $U_{sub>P</sub>}$
- 8 terminal points, connected to the ground (GND) of the 24 V I/O supply $U_{sub>P</sub>}$
