Technical data

Notes

Environmental Product Compliance

California Proposition 65

Further information on California's prop. 65 is available under "Downloads" in the manufacturer's declaration

Product properties

Product type

Assembly tool

Mounting

Assembly note

The **UNIFOX RT-CK 4.0** tool (Item No. 1072064) is required **for removing** the crimp contacts. At every "C" contact chamber, the position of the contact retaining springs is marked with two black markings on the connection side. From the connection side, the tool is pushed over the contact in a position-oriented manner, so that it touches both the retaining springs. Then insert it up to the limit stop. **Do not turn the inserted tool.** Push the conductor out of the insulating body along with the tool from the connection side.
