## Technical data

### Notes

General	HC-M-...-70 contact carrier
Assembly note	The quality of a crimp connection is determined by DIN EN 60352-2.
Assembly note	The contacts are qualified for crimping dies in accordance with DIN 46235. Klauke, for example, offers an appropriate tool: Crimping dies from the D22 series are required for the EKM6022 battery-powered hydraulic crimping pliers. Due to the narrow crimping width of 5 mm, it is very important to make two compressions next to one another. For the EK12042 model, crimping dies from the HD13 series are required. Due to a wider crimping process, only one compression is required.

### Product properties

Product type	Crimp contact
Series	HC-M-...-70
Contact material type	turned

### Connection data

#### Connection technology

Contact connection type	Socket
Connection method	Crimp connection

#### Conductor connection

Stripping length	18.5 mm
Connection cross section	16 mm <sup>2</sup> ... 16 mm <sup>2</sup>
Connection cross section AWG	6 ... 6

### Material specifications

Material Contact	Cu alloy (lead-free)
Material Contact surface	Ag

### Dimensions
