Coupling module (gateway), I/O coupling module for two INTERBUS systems, 24 V DC, IP20 protection, with MINI-COMBICON remote bus connection

Product description

INTERBUS CT coupling module (gateway) for two INTERBUS systems

INTERBUS CT coupling modules connect two INTERBUS systems together on the input/output level. In their function, they correspond to two normal I/O modules, the inputs and outputs of which are connected crosswise. In this way, INTERBUS can be used to facilitate bi-directional data transfer between any two control systems. The extent of the data can be up to ten words (160 bits) per cycle. The data width can be configured between one byte and ten words by means of a rotary switch (byte configuration is only possible in Generation 4 controller boards). The selected data word (or byte) is shown on a 7-segment display.

The modules are installed directly in the INTERBUS remote bus. In the IBS CT 24 IO GT-T module, the bus is connected via plug-in MINI-COMBICON terminals. The IBS CT 24 IO GT-LK fiber optic module has F-SMA connectors.

The modules are equipped with electrically isolated bus lines as well as a redundant supply of the 24 V power.

Sixteen status LEDs assigned to each bus line are used to display the signal states.

A button located on the module permits the current output word or byte of the specific remote bus to be displayed. In this case, the output information for one bus is the input information of the other.

Your advantages

- Electrical isolation
- DIN rail mounting
- Diagnostic and status indicators
- Remote bus connections via MINI COMBICON

Commercial data

Item number	2719470
Packing unit	1 pc
Note	Made to order (non-returnable)
Sales key	DN16
Product key	DR1A11
GTIN	4017918126940
Weight per piece (including packing)	437.1 g
Weight per piece (excluding packing)	403.91 g
Customs tariff number	85389091
Country of origin	DE

Technical data

Product properties

Product type	Gateways/Proxies
Type	Block design

Electrical properties

Test section	Supply voltage/logics 500 V AC 50 Hz 1 min
	Supply voltage/functional ground 500 V AC 50 Hz 1 min
	Logic/functional ground 500 V AC 50 Hz 1 min
	INTERBUS system 1/INTERBUS system 2 500 V AC 50 Hz 1 min
Protective circuit	Reverse polarity protection; Serial diode
	Surge protection (35 V for 0.5 s)
Power dissipation	5 W

Supply

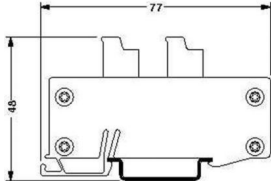

Supply voltage	24 V DC
Supply voltage range	19.2 V ... 30 V
Residual ripple	± 1.2 V
Typical current consumption	240 mA

Interfaces

INTERBUS remote bus (incoming/outgoing)

Connection method	10-pos. MINI-COMBICON connector
Transmission speed	500 kbps

Dimensions

Dimensional drawing	
Width	204 mm
Height	77 mm
Depth	37 mm

Environmental and real-life conditions

Ambient conditions

Degree of protection	IP20
