

RAD-ISM-900-HOP-US - Hopkey

2867539

<https://www.phoenixcontact.com/us/products/2867539>

Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

The HOPKEY contains information such as the transmission frequencies used and the hop sequence. This information is required e.g. when installing an additional receiver / repeater in an existing system.

Product description

When the supply voltage is switched on, the information is transmitted to a non-volatile memory in the module from a plugged in HOPKEY. Then this HOPKEY can be used to "train" other receivers. In the last receiver, the HOPKEY can be preserved. If no HOPKEY is plugged in, the information in the module is used.

Commercial data

Item number	2867539
Packing unit	1 pc
Note	Made to order (non-returnable)
Sales key	NULL
Product key	DNC651
Weight per piece (including packing)	20.7 g
Weight per piece (excluding packing)	20.7 g
Customs tariff number	85423261
Country of origin	CA

2867539
